

Hanno® FA-D and FI-D stretchable foil tape

Hanno®-3E joint sealing system components with 10-year function guarantee* suitable for a RAL-conform windows installation.

*in accordance with manufacturer's conditions when using all of the Hanno system components

Hanno is certified pursuant to
ISO/TS 16949

Hanno® FA-D foil tape is a combination of flees and a vapour diffusion-open function membrane. Hanno® FI-D foil tape of a stretchable, airtight foil-fleece combination. Both of the tapes have a self-adhesive affixing strip. This enables a very simple and completely concealed insertion of the foil tape which can be plastered or painted over.

We recommend the use of Hanno®-Sealing Adhesive F or Hanno®-3E Foil Adhesive MS.

- Universally applicable for new buildings, renovations
- Absorbs building movements due to stretching capacity.
- Can be plastered or painted over.
